Our dear Dady;

What in this world is wrong that you don't write, its one wk. since you wrote or one wk. to-morrow since we rec'd a letter from, I was going to send a telegram tonight to Mr F, to ask What Was Wrong mit you? but Mr Aug and Mr Cummings persuaded me not to do it for another day or two.

Your kids have just gone to bed laughing as usual & I must go to now, am so sleepy.

All were at Church & S.S as per ussual, good night, hope you'll sleep as well as I will.

Daddy - guess I'll not have much time to write, so wi be brief as possible.

Kids are all in bed stil Helen & Gar were both awak in night.

Daisy gave bucket almost f this a.m within about this much of top ———, Calf is light feeder so far & drank from first without any trouble, yesterday I only milked Daisy 2 times & will now feed her better since udder trouble time is past I give her 2 times per day about a pt. of bran & table-spoon of "Kow Kure" think that K.K. has helped her to get along so well. Got a new neighbor in Evans house a man by nick-name - Jake, last summer had Yellow mule team, he does teaming & cheaper than any body else. he is going to take milk of us.

Dady - don't you or Mr F. forget
to notify the Accidental Life
Ins. Co. at once if you get
sick or hurt. Then you will
draw as much money as
tho you were working, just
think of it even tho it be
only the few days.
If I don't hear from you today
there will be a telegram going
up there tonight to Mr F. & you.
This is going to be another
warm day, I am going to
try to do some washing.
All the Anti Billings people
want you to come home
for Sat. election
If we just go up to Ca
But I think I can get ready
with-out you coming home
but will take me longer as
will half to get some help in
house & get man to nail up
some boxes, I want to get a
lot of groceries to take along
got my big coffe can ready
& few other articles, Jake or
Creig will do hauling.

I think our best plan is not wait on Lewis reply but close up shop here and go up & camp out up there untill we get tired of it, perhapse I can get Webbs keep cow & horse for the milk or some one, then Craig told me yesterday that he thot I could get pasture for Andy down in Mr Clovers Alfalfa field & that would be fine if they don't ask too much.

The Bank people were here on Thursday to see why I wasent paying up the rent on this place, they want it all paid up to 1st of July so can fix up their books Etc for April, May & June 21 & then 2 on March yet makes 23 Then I owe water rent, I suppose you will fairly gasp & wonder what I've done with all the money you have been sending me, don't think I've thrown any away.
